ROCKET SAUCE “Build a Robot Day” Successful

Dear Friends & Sponsors,

We hosted a successful “Build a Robot Day” on Saturday 2 December at the Mathews High School. We had a few new faces attend and we almost completed building a working robot in 1 day!!! We crammed a lot into one day which gave our team members plus our visitors the chance to experience first hand what the competition build season will be like when we kick-off the new season on 6 January 2018. Our strength was in building a chassis for the robot to run on We need more work on wiring, crimping and the electrical side of the robot. We ran out of time before we could complete our final network configuration on the robot computer and download the Python program to run it.

Attendees at “Build a Robot Day” included left to right: Alex Leavell; Henry Hospodar; Carson Brown; Dillon Dowdy holding Team Mascot Flaco; Team Captain Davis Dowdy; Sarah Renner; and Kaiden Chase.

Team Coach Larry Brown tells team members and visitors about the Mathews High School robotics team in the team's workshop behind the High School.

You may make donations to our upcoming season by sending a 501(c)(3) "not for profit" donation to Mathews High School, First Robotics Team 1137, P.O. Box 38, Mathews, VA 23109. Make your check payable to "Mathews High School" and write "Robotics Team 1137" in the Memo area.
